

HOW TO:

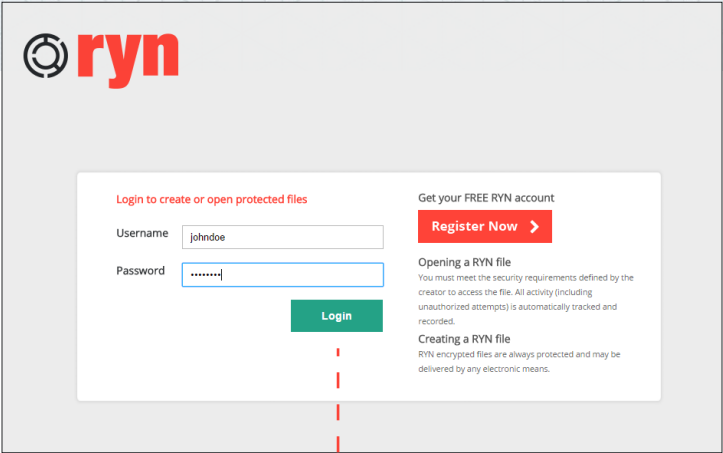

DECRYPT A RYN™ FILE

DECRYPT A RYN™ FILE

Go to rynfile.com and click **Access Now** OR **Try It Free** to go to the **RYN™** secure login and registration page.

Or go to my.rynfile.com
For Easy Access: Add to your Bookmarks or Favorites.

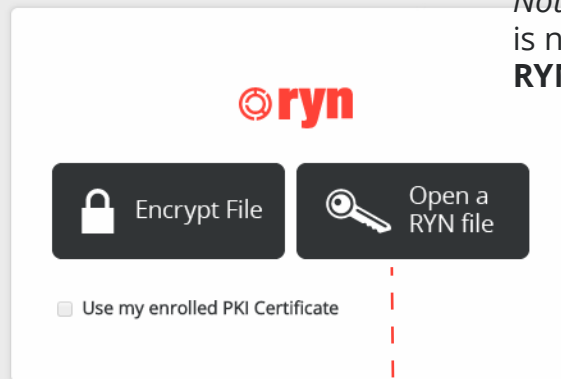

2.

Fill in your **RYN™** username and password and click **Login**.

Click **Open a RYN™ File**.
Note: PKI Certificate is not available for RYN™ Beta.

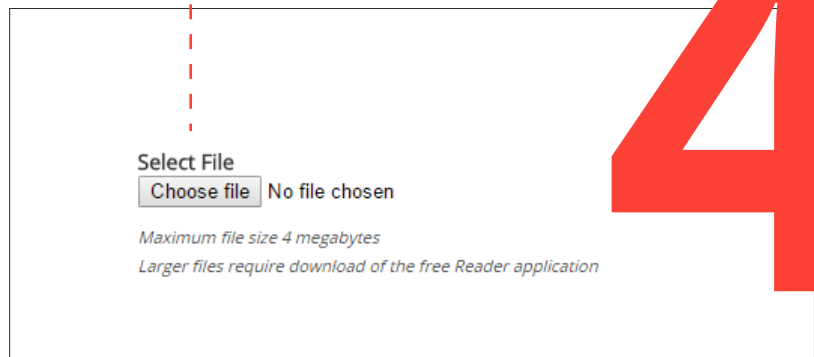

3.

Under **Select File** click **Choose File** to open the RYN™ file.

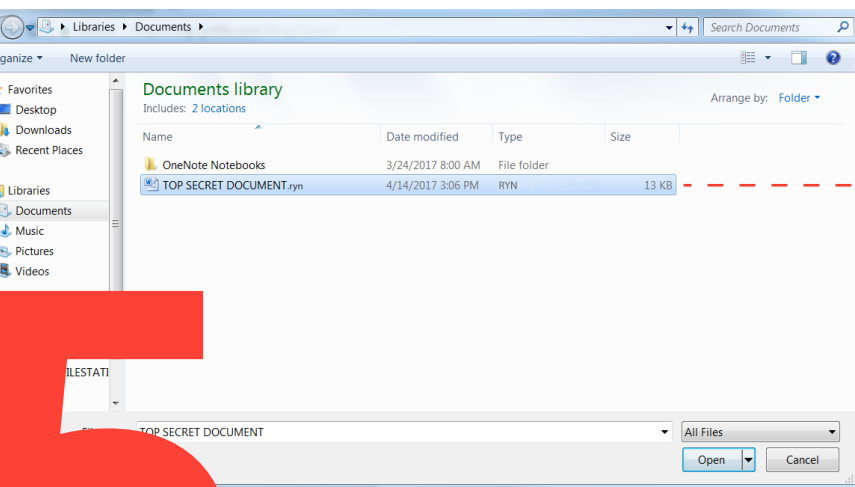

Note:

RYN™ files have **.ryn** as the file extension at the end of the file name.

Your file directory/file exchange will pop up.

4.

Select the file you want to upload and click **Open**.

5.

6

Click **Submit** to view the **RYN™** cover sheet.

Note:
If a **security code** was set for the **RYN™** file, you will be prompted to enter the security code before you can click **Submit**.

If you do not have the Security Code, you may request access to the **RYN™** file by clicking **Request Access**.
The individual who encrypted the file through **RYN™** has the option to grant or deny access to the file.

Click **Get File** to open the **RYN™** file.

Note:

Chrome Web Browser:
Users will need to click a pop-up tab with the file name to view the file.

Edge Web Browser:
Users will be prompted to select **Save** or **Save As** to select the folder to store the file, then click Open to view the file.

Firefox Web Browser
Users will be prompted to select **Open** to view the file.

Safari Web Browser
Decrypted files are saved to the Downloads folder.
