Opening a RYN file

You must meet the security requirements defined by the creator to access the file. All activity (including unauthorized attempts) is automatically tracked and recorded.

Creating a RYN file

RYN encrypted files are always protected and may be delivered by any electronic means.

# 2.

Fill in your **RYN™** username and password and click **Login**.

Click **Open a RYN™ File**.  
Note: PKI Certificate is not available for RYN™ Beta.

# 3.

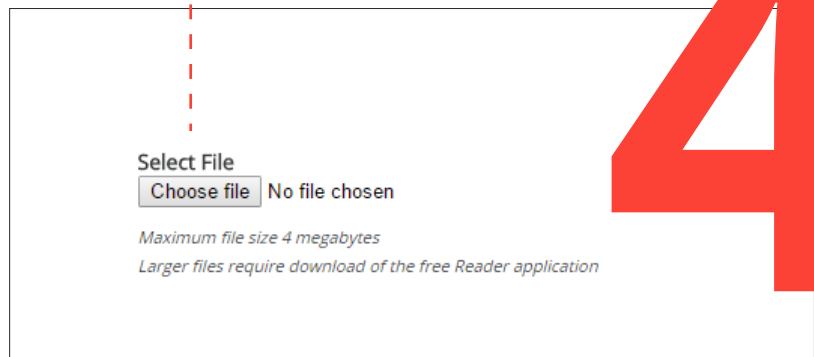

Under **Select File** click **Choose File** to determine the file's authenticity.

*Note:*

To verify the authenticity of a file, you must select the decrypted or opened version of the file without the **.ryn** file extension.

Your File Directory/File Exchange will pop up.

# 4.

**Select** the file you want to upload and click **Open**.

Click **Submit** to view the RYN™ cover sheet.
